Key facts

Fund Size	£81.9 billion as at 30 September 2018
Prudential Financial Strength rating*	A+
Portfolio Manager	Prudential Portfolio Management Group Ltd
Investment Style	Prudent Active
Performance Objective	To offer competitive long term returns

* Standard & Poor's as at September 2018

Fund description

The fund offers the prospect of competitive long-term real returns whilst smoothing the peaks and troughs of day-to-day market movements. Investment returns are passed to policyholders through bonuses. The fund is invested in a diversified portfolio of UK and overseas shares, bonds, property and cash. A significant proportion of the fund is invested in shares and property which can be expected to produce attractive long-term returns, but the return on these assets can be volatile and so the fund is actively managed to optimise the returns while controlling risk.

Fund breakdown

The asset mix is likely to vary in the future.

What is the risk rating?

- These risk ratings have been developed by Prudential to help provide an indication of a fund's potential level of risk and reward based on the type of assets which may be held by the fund. Other companies may use different descriptions and as such these risk ratings should not be considered as generic across the fund management industry.
- We regularly review our fund risk ratings, so they may change in the future. If, in our view, there is a material change in the fund's level of risk, for example due to a significant change to the assets held by the fund or in

Commentary

An escalating trade war between the US and China was very much at the forefront of investors' minds during the third quarter of 2018. Despite the prospects of import duties being applied to a significant volume of products both from China into the US and vice versa, so far at least, economic growth in both countries remains resilient.

Over quarter three the UK stockmarket was one of the worst performers globally. In the US the S&P 500 Index and NASDAQ composite reached all-time highs. Performance of European stockmarkets was disappointing with company shares facing several headwinds. Japanese shares made solid gains, performing particularly well in September. Stockmarkets in Asia Pacific ex Japan declined as the fears of a global trade war hit investor risk appetite. Emerging market stocks were under pressure as a crisis in Turkey, fears of a global trade war and a rising US dollar dampened investor sentiment.

In 2018 UK commercial property has generated a reasonably strong total return; however, gains are more modest compared to the same period in 2017. Capital value and rental value growth continue to be strongest in Industrials. UK gilts declined over the third quarter of 2018 as higher-than-expected inflation readings and some robust economic data helped push 10-year yields higher. The Bank of England raised interest rates from 0.5% to 0.75%. UK corporate bonds held up well with Index-linked gilts outperforming conventional gilts.

Prudential Portfolio Management Group's outlook for the global economy remains constructive and they expect solid global economic growth to continue in 2018.

Underlying investment returns

The value of your policy will be sent out in your annual statement or is available on request. The value will depend on when you actually invested allowing for tax, charges and smoothing. The value could change by more or less than the underlying investment return of the overall fund.

Past performance is not a reliable indicator of future performance.

the way the fund is managed, we will provide information on the new risk rating. We recommend that you make sure you understand the risk rating of any fund before you invest. You will find this information at www.pru.co.uk/factsheets.

- You should also consider discussing your decision and the appropriateness of a fund's risk rating with an adviser.

Prudential With-Profits Fund

Performance (applicable from 6 April 2018)

For investments in the With-Profits Fund, the value of the policy depends on how much profit the fund makes and how we decide to distribute that profit. Policyholders receive a distribution of profits by means of bonuses, or other methods as specified in the relevant policy documentation. There are two types of bonus, regular (or reversionary) and final (or terminal) bonus.

The performance figures shown are overall annualised returns for contributions made on the dates specified. The returns include both regular and final bonuses added to a benefit paid at normal retirement date, but make no allowance for any applicable initial charges, allocation rates or early cash in charges (explicit charges).

Final bonus may vary and is not guaranteed. The rate of future bonuses cannot be guaranteed. The value of an investment can go down as well as up and the fund value in the future may be less than the payments you have made. Please bear in mind that inflation will reduce what you can buy in the future.

Please read the important information below and the Key Features document for the relevant contract.

The performance figures are declared by Prudential Assurance Company Limited, usually each February.

For the Unitised returns shown, it is assumed that the contribution was invested without any allowance made for any explicit charges on 6 April 1, 3, 5 or 10 years ago and realised on or after 6 April 2018 to secure benefits

at normal retirement age. For the Cash Accumulation returns shown, it is assumed that 1, 3, 5 or 10 scheme revision dates ending after 15 March 2018 have passed since the contribution was invested.

With-Profits bonus series explained

Cash Accumulation With-Profits

Cash Accumulation MPP With-Profits is used solely by the oldest "pre 101" money purchase contracts for occupational pension schemes typically established from 1974.

Cash Accumulation AVC With-Profits is used solely by Additional Voluntary Contribution contracts as part of an occupational scheme (but not where VCs are paid through another Prudential group pension contract).

Unitised With-Profits

Unitised L With-Profits is used by the "101" money purchase contracts for occupational pension schemes and grouped personal pension contracts (including the "Shout/Xafinity" contracts) typically established from 06/04/1987 where holdings are expressed in terms of units.

Unitised N With-Profits is used by the "Select" group personal pension (established 1997) and "Money Purchase Plan/Group Personal Pension" money purchase contracts for occupational pension schemes and group personal pension contracts established since 2001 where holdings are expressed in terms of units.
